- > **Walk** around the surroundings of Cantagrullas Cheese Farm to know about its natural environment
- > Visit to the **cheese dairy**, where we will know about their project and production process
- > Cheese **tasting** and farewell

**ABADIA RETUERTA** is one of the most unique wine estates in all the Iberian Peninsula. The **Winery**, located in the Spain's Wine Golden Mile, produces an internationally acclaimed product catalog, which reveals all the richness and potential of the diversity of its plots and terroirs. The **Estate** is nestled in a privileged natural environment and hosts an exceptional legacy, where the 12th century **Abbey** of Santa María de Retuerta stands out.

**GRANJA CANTAGRULLAS** is an audacious project that honors life in the countryside and allows a closer and friendlier connection to nature. This **cheese dairy** uses the milk from their family Castilian sheep flock, a native protected breed, to obtain a small production of raw milk **cheeses** of great diversity and uniqueness, always combining the traditional artisan craftsmanship and technological innovation.
